

### Taconic Parkway to Route 9

Take the Taconic Parkway north a short way to the second exit (Route 9A North). Follow Route 9A (which becomes Route 9 at Croton) for roughly 20 minutes to Peekskill. On your way, you'll see the Hudson River on your left as you pass Croton, and again as you reach Peekskill. At the traffic light in Peekskill, exit left toward the Bear Mountain Bridge (Routes 6/202 West). Cross Annsville Creek and go around the traffic circle toward the Bear Mountain Bridge. The entrance to the Center is 100 feet beyond the circle, on the left. Look for the blue building, pictured above.

Note: The Taconic Parkway is most easily reached from Southwest CT by way of I-287 West and the Sprain Parkway North. From the West side of Manhattan, the Taconic is most easily reached via the Henry Hudson/Saw Mill Parkway.
